

Decorative log simulators

UTAH Calefactor

SKU: KTS005

EAN: 8445401006367

KEKAI blends experience, design, and warmth in each of its products. Adapting to every space and moment for you to always feel better at home.

Their log simulators help build a relaxing environment on any room. They will be there while you read, share meals with friends or enjoy a nice time around it, adding a nice decorative touch to the area.

The 'Utah calefactor' model warms your surroundings with **two possible levels of temperature: power 950/1950W**. Choose the better option for you and combine the experience with the **LED light flame effect** available on a natural orange color.

You will feel as if you were sitting in front of a small bonfire.

Created for indoor usage. Its design was carefully made to offer a cozy feeling at home and to match the room style.

It is a **steel structured** simulator with **resin decoration**. Works with **manual control** and **air outlet on the front**.
