KEKAI blends experience, design, and warmth in each of its products. Adapting to every space for you to always feel better at home.

Create the perfect environment to relax with its electric stoves. Designed to offer both a decorative function and to heat your rooms.

'Colorado' can be installed without a problem on indoor spaces because of its **electric system, which does not generate gas, smoke, or ashes.**

Heat the room with any of its **two available power positions: 950/1950 W.** It also has an **adjustable thermostat.**

This product offers a cozy ambiance while heating your living room. Its **burning log effect** will make you feel as if you were sitting in front of a small bonfire.

'Colorado' has a **three-sided vision:** you can see the burning logs simulator from the front and from the sides of the stove. The effect is independent from the heating system.

Transform the heat into an experience with KEKAI's 'Colorado'.
