Crater barbecue is portable and has active ventilation to accelerate your grill and avoid smoke.

It is easy to install and to control: use it in seconds and regulate the ventilation as you wish.

Keep it safe by closing its recipient. It avoids sparks from getting to the outside. And for extra security, the external side of the barbecue is built with **double layer**, so it doesn't overheat.

Easy to clean. Crater barbecue incorporates a **tray and a removable bowl that collects fats**. You could easily wash it, even in the dishwasher.
